## BRINGING TOWNS AND VILLAGES UP WITH THE BIG CITIES, ORDERING YOUR CABS WITH A TOUCH OF A BUTTON ON YOUR SMARTPHONE.

We're excited to say that Frenzi has plans to *fulfill the transportation needs* of people in smaller towns and cities, where the only form of transportation has traditionally been driving your car, taking the bus, or using a local taxi firm.

Gone are the days when locals from small towns have to wait for one bus every hour or call their local cab firm for the next available taxi that could range from anything between 'it's on its way to 'I have nothing for the next hour.'

Residents of larger cities usually benefit from the latest market-leading technologies or take advantage of the newest transportation methods and offers.

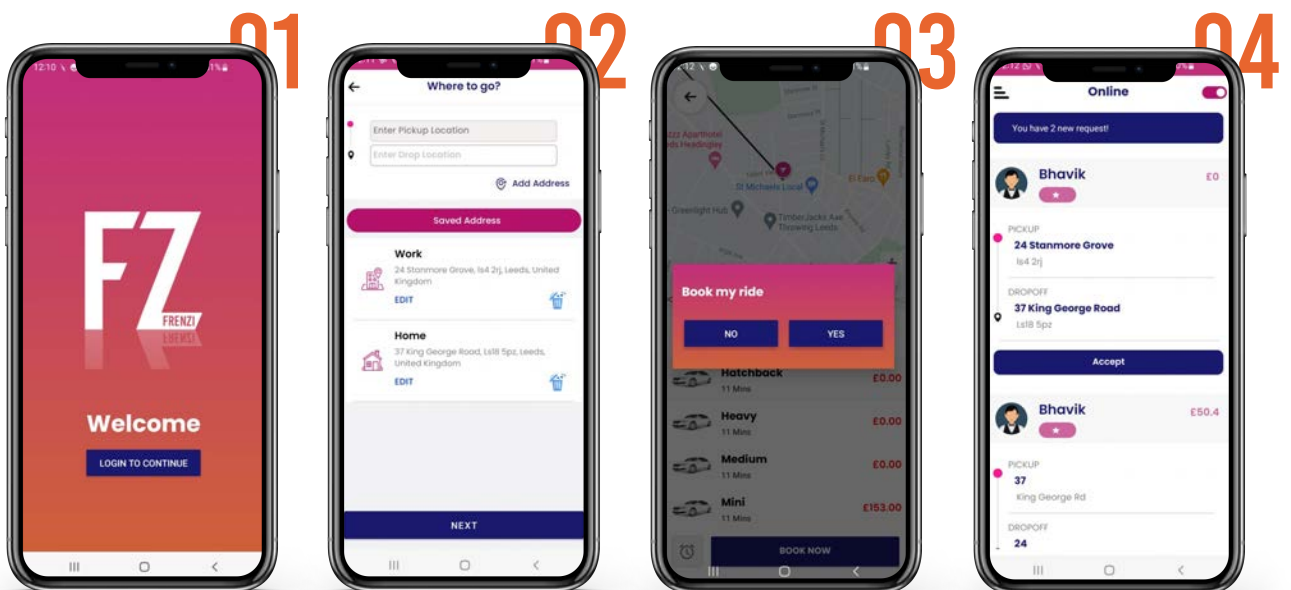

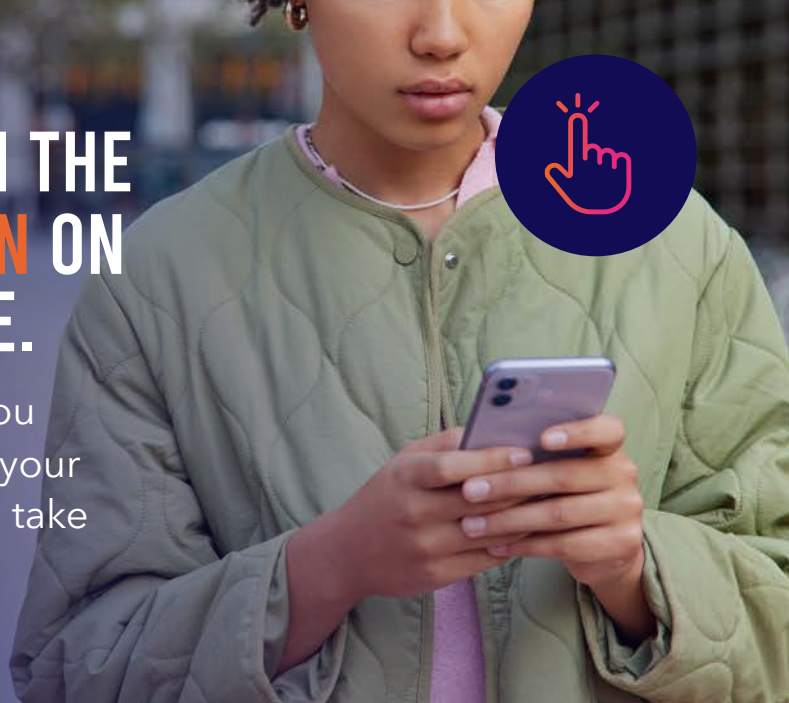

**THAT'S WHY IT WAS AT THE FOREFRONT OF OUR MINDS TO BRING FRENZI TO SMALLER TOWNS IN OUR FIRST PHASE ROLLOUT.**
