

# FRENZI

## RIDE **TOGETHER.** OR RIDE SEPARATELY WITH A FRENZI **FAMILY ACCOUNT.**

You can choose a family member to be the lead account holder who will hold power to select the controls for the rest of the family.

Branch out and ride as and when it suits you, individually, while remaining *under one account.*

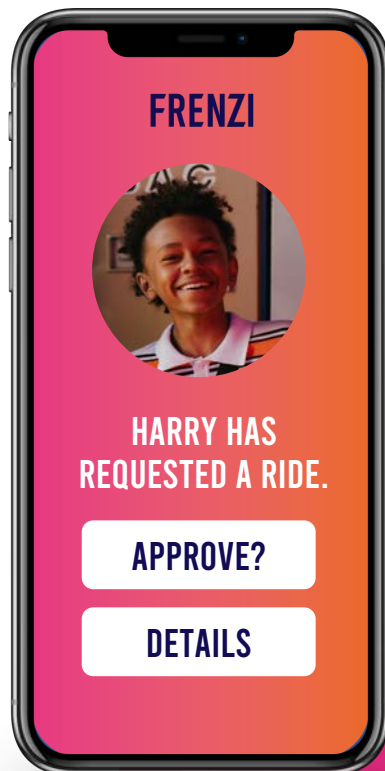

## HOW DOES IT WORK?

You can each select your ride via the Frenzi app, using the family account details and payment methods, and having your favorite app features activated for everyone to enjoy.

**AS THE LEAD ACCOUNT HOLDER, YOU WILL HAVE ACCESS TO SPECIFIC PARENTAL CONTROLS THAT WILL ENSURE YOU ARE IN CONTROL AT ALL TIMES.**

Activate '*approve a ride*'; you will have to manually accept a ride requested by your family member.

Select your family's favourite drivers, and feel at ease knowing your family member is safe and with a driver you know.

**FRENZI**

There are many benefits to opening a Frenzi family account; as a young adult, knowing that your parent or guardian can keep track of your journeys to school, work, or social occasions will give you that *extra peace of mind*.

Requesting a rider from your phone will then alert the family account holder, who can

Approve  
the ride

See the  
selected  
driver

Check the  
car you will  
be in

Check the  
route taken

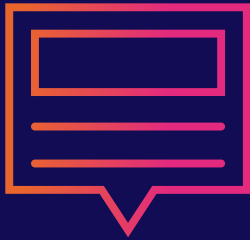

See your  
arrival time

You can still access Frenzi's other favourite features while using a family account.
